

STUDIOTECH's main business is engineering, distribution/sales, installation and after-sales servicing of broadcast and professional audio/video equipment. The company also designs and installs turnkey projects such as recording/mixing studios, editing suites and mobile OB units.

Vacancy for Electrical Engineer

Studiotech Belgium is seeking a hands-on Electrical Engineer based in our Brussels office, with a real passion for basic electronics and electricity, with the ability to travel as required.

Experience:

- Applicants for this post should have a University degree in civil or industrial engineering – specialised in Electronics or Electro mechanics
- Minimum two years' experience in electronic design and production
- Good knowledge of and hands-on experience with electronics and electricity
- Basic knowledge of common IT tools including drawing packages
- Bilingual French/English is required, intermediate knowledge of Dutch is an advantage

Responsibilities:

- Design and production of custom built electronic boards
- Implement solutions in the audiovisual and broadcast fields
- Analyse and resolve users' technical and infrastructure concerns
- Internal technical support to all Studiotech teams
- External customer/user support

Profile:

- Passion for audiovisual technologies
- Proactive and motivated
- Flexible, able to work alone or in a team
- Able to multi-task and transition between concurrent projects
- Available to travel within or outside Europe

Offer:

- Pleasant, dynamic working environment in an open-minded company culture
- Attractive remuneration package commensurate with skills and experience

If your experience matches our challenge please send your CV with a covering letter stating salary expectations to jobs@studiotech.be
